**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-20, 29-50 and 58-78, drawn to a television transmitter/headend, classified in class 725, subclass 114.
  - II. Claims 21-28, 51-57 and 79-86, drawn to a television receiver, classified in class 725, subclass 131.

2. Inventions I through II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable.

In the instant case, invention I has separate utility such as a cable headend for transmitting data to multiple video receivers. See MPEP § 806.05(d).

Invention II has separate utility such as a set-top box used by a viewer to receive and decode television programming. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for reexamination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be
